## EXPERIENCE

---

### TEO International

Associate Principal Software Engineer

Islamabad, PK  
Mar 2022 - Present

- I led teams for our big-name clients like Unilever and Google. I have built an ecommerce platform with a team of 8 devs and even revamped the employee attendance system.
- Worked with ReactJS, Redux, Node, WebSocket, RxJS, NextJS, Material UI and Payment Gateway integration.
- Plus, I have trained my colleagues in NextJS, TypeScript and E2E testing with Cypress.

### XIOTS (Formerly CreativeKhan)

Sr. Software Engineer (Frontend)

Islamabad, PK  
Sep 2020 - Feb 2022

- I have created and scale softwares for different clients by using JavaScript, TypeScript, React, Node.js, and GraphQL and other modern tech stacks.
- I led a team of 4 devs who built a multi-tenant invoicing system that brings in revenue 50k pounds a week.

### Relymer Group

Software Engineer (Backend)

Islamabad, PK  
Jan 2018 - Sep 2020

- Experienced Backend Software Engineer with a strong background in engineering and maintaining major features on numerous iOS/Android applications REST/GraphQL API(s) Backends.
- Skilled in developing software solutions using ReactJS, NextJS, GraphQL, NodeJS, TypeScript, JavaScript, even worked with some Blockchain technologies.
- Experienced in collaborating with cross-functional teams to ensure that project timelines are met, and that the product meets the client's specifications.

### Seven Koncepts Pvt. Ltd.

SEO Executive

Rawalpindi, PK  
Apr 2017 - Jun 2017

- Worked with a team of three designers, 5 developers to rank some websites and an e-commerce platform for proportsae.com, an ambitious startup originating from UAE.
- Helped solidify a brand direction for proportsae that spans both SEO and marketing.
- Interfaced with clients on a weekly basis, providing technological expertise.

## EDUCATION

---

### Virtual University Of Pakistan

Hyderabad, PK  
2014 - 2015

## PROJECTS

---

**Medicus Q&A NodeJS Backend** ExpressJS, NodeJS, REST API, GraphQL API(s), Apollo, Firebase, FCM Notifications, Postgres, Sequelize, NGINX/VPS Deployment

Medicus is a Q&A app, built for doctors and patients and my part in it was to build apis for the platform.

**Multi-Vendor E-Commerce Solution** ReactJS, Redux Toolkit, Knox, REST API, Material-UI (MUI), NextJS, Context API, Websockets, Styled Components, Heroku, Stripe

A Frontend we app built with NextJS, using Stripe as a Payment gateway & Redux toolkit for state management.

**ROY Q&A iOS/Android Application Backend** Typescript, Firebase, Cron, NextJS, Rest API, Javascript, ExpressJS, NodeJS, MySQL

<https://apps.apple.com/us/app/roy/id1493190114?ls=1>

The application requires one user to post a question, and this question is sent to 3 RANDOM users of the app. Those three random users reply to the question and the question asking person then has 3 responses from 3 different people.
